Information:

- We go outside at school every day so clothing appropriate for the weather is essential.
- Each day we will have time for children to play freely as well as time to engage with specific activities, which are outlined in the above table.
- Children are permitted to bring tablets or other gaming devices to use for up to an hour each day with us. While we take reasonable measures to ensure the device's safety it is ultimately the child's responsibility to look after their device.
- Each afternoon from around 4pm a G or PG rated movie will be played which the children can watch if they would like or they may play freely.
- We provide a nutritious afternoon tea for the children, while morning tea and lunch must be provided from home.
- Excursions carry a \$10 fee per excursion.
